

APGA Environment Award 2025

Awards Open	1 May 2025
Awards Close	31 July 2025
Categories	Outstanding environmental performance
Award	Perpetual trophy for Environment
Consideration	Full Member association or Individual Member
Submission type	Digital
Adjudication	APGA Committee

The Australian Pipelines and Gas Association annually recognises environmental excellence within the industry through the Environment Award, initiated in 2012.

This award welcomes nominations from all APGA members, including companies and individuals. Evaluations are based on written submissions reviewed by an APGA committee comprised of independent professionals and technical regulators.

Recognising achievements aimed at improving environmental practices, the award acknowledges outstanding environmental performance, innovative approaches addressing environmental issues, and new, well-defined environmental management systems, procedures, or practices.

To secure the award, nominees must demonstrate the effective implementation and functionality of their environmental programs.

Nominations should exhibit proven effectiveness in enhancing environmental outcomes, fostering behavioural changes and positive attitudes toward the environment, ease of sharing information industry-wide, support from the industry, and cost-effectiveness.

Award recipients receive publicity through APGA external publications and media releases, with acknowledgment being a condition of entry.

Performance by member organisations on international projects will be acknowledged provided substantiated performance outside Australia.

Assessment criteria include demonstrated excellent environmental outcomes, commitment to environmental excellence, surpassing regulatory compliance or setting new industry standards, innovation, community engagement, and corporate social responsibility.

Nominations should include contact details, a one-page summary highlighting how criteria have been met, details of the achievement, acknowledgment from involved APGA members, substantiation references, and a PowerPoint slide for potential display during the Award ceremony.

Visual aids and images supporting the entry are encouraged for potential use in APGA publications and external media outlets.

Nominations for the 2024 Award must be **submitted online by 31 July 2025**. Nominations must specifically address the outlined criteria for consideration.
