### POLLARD'S SAWDUST SUPPLIES

POLLARD'S PIPELINE BEDDING  
Standing up under pressure since 1968

Pollard's Pack Tuff bags:

- 80% lighter than sand bags
- chemical-free and sustainable
- sourced sustainably
- eco-friendly
- 3 size options
- won't explode/balloon under pressure
- DELIVER AUSTRALIA WIDE

www.sawdust.com.au

Pipeline information and graphic design © Prime Creative Media 2025.

This map is a schematic representation only and shows the approximate location of major Australian pipelines. It does not show exact pipeline routes. Route, length and capacity information is approximate and intended as a guide only, and is correct as at July 2025.

This map is intended as a general source of information only.

**Note:** The coloured sections on this map are gas-producing basins of Australia. They are approximate in size and the varying colours are not representative of estimated reserves or developed infrastructure.

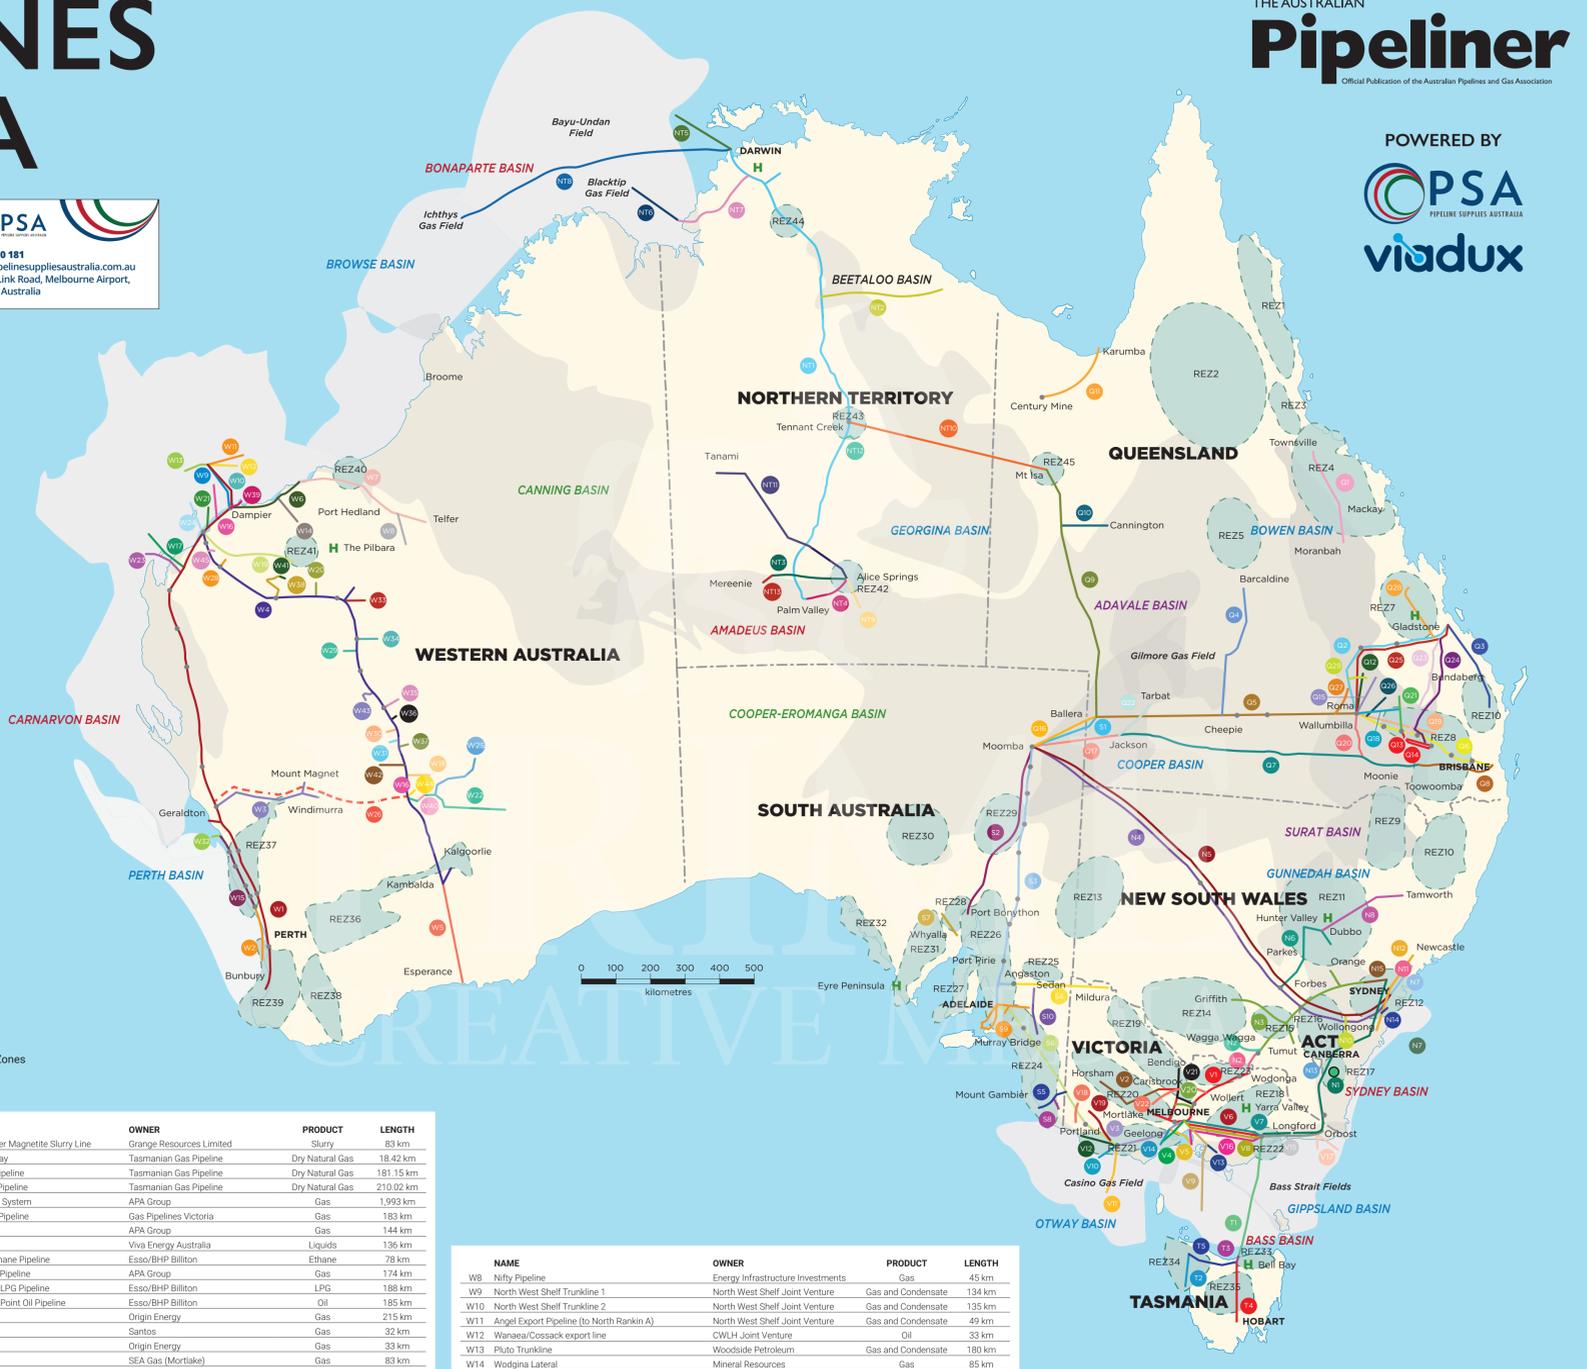

NAME	OWNER	PRODUCT	LENGTH
NT1 Amadeus Gas Pipeline	APA Group	Gas	1,658 km
NT2 Daly Waters - McArthur River Mine Gas Pipeline	Power and Water Corporation	Gas	330 km

FLAWLESS FUSIONS

**McElROY**

WHEN IT COMES TO A JOB WELL DONE, having the data to back it up is invaluable. The DataLogger from McElroy helps to assure every fusion joint is in accordance to industry standards. By documenting operator and machine information, times, and pressures, the DataLogger can provide a comprehensive record of the entire job.
